

Instructions for Qualatex® Clever Cow

To keep assembly time to a minimum, gather the materials and read through the instructions before beginning.

Labor: About 10 minutes

Materials:

- 1 32" (81cm) "Contented Cow" Microfoil® Shape 29650
- 8 11" (28cm) "Holstein Cow" Latex Balloons 10389
- 1 260Q White Latex Balloon 43962
- Qualatex BalloonRibbon™
- Weight
- Black Sharpie® Marker

Instructions:

1. Inflate four 11" "Holstein Cow" latex balloons to 9" (23cm) and create a 4-balloon cluster (see "4-Balloon Cluster" below). Tie to the weight.
2. Inflate four 11" "Holstein Cow" latex balloons to 6.5" (16.5cm) and create a 4-balloon cluster. Tie this cluster into the cluster in Step 1, rotating it so it nests.
3. Inflate the 32" "Contented Cow" Microfoil, roll up the neck with ribbon, and tie into the cluster in Step 2.
4. Create a Curly 260Q (see "Curly 260Q" below). Make a twist in the middle of the Curly 260Q to create two bubbles. Deflate the knot end and tie, creating a shorter "tail." Color the tip of the tail black with a Sharpie. Tie the knot end into the clusters.

Curly 260Qs

1. Fully inflate the 260Q with air, and let out the air to stretch the balloon.
2. Wrap the 260Q around a cylindrical object, stretching it a little as you go and making sure not to wrinkle or twist the balloon.
3. Air inflate the 260Q while holding it around the cylinder, and tie. As it inflates, the 260Q will curl around the cylinder.

4-Balloon Cluster

Inflate and size two balloons, then tie the necks together. Repeat to make a second pair, then twist the two pairs together to make a 4-balloon cluster.

WARNING:

CHOKING HAZARD

Children under 8 years can choke or suffocate on uninflated or broken balloons. Adult supervision required. Keep uninflated balloons from children. Discard broken balloons at once.
