

Table-top balloon stuffing chamber

PUFF'N'STUFF™

MODEL: PNS-004

INSTRUCTION MANUAL

Thank you for your recent purchase of the PUFF'N'STUFF™ balloon system!
Our systems are designed to provide years of fun and trouble free operation.

CONTENTS OF THE KIT

Please check the contents of your PUFF'N'STUFF™ package. The package should include the following:

PUFF'N'STUFF™ lid with a collar that has six nubs.

PUFF'N'STUFF™ base.

Inflator hose and protective cloth sleeve.

OPERATING THE SUPER STUFFER™ STUFFING CHAMBER

Place the PUFF'N'STUFF™ lid on the PUFF'N'STUFF™ base and proceed to stretch an 18" balloon over the opening.

HOW TO EXPAND THE BALLOON

You can stretch the balloon over the PUFF'N'STUFF™ collar either manually or with optional Balloon Expander (purchased separately).

1.1. MANUALLY:

The PUFF'N'STUFF™ collar is injection molded with nubs to make it easier for a balloon neck to be expanded over the opening/collar by hand.

Please follow the pattern in the diagram below to manually expand the balloon over the PUFF'N'STUFF™ collar.

1.2. WITH THE OPTIONAL BALLOON EXPANDER:

- 1.2.1. Spread the handles of the balloon expander apart so the tangs come together. Place a 18" balloon over the tangs and proceed to bring the balloon expander handles together. Watch the balloon neck expand.
- 1.2.2. Holding the balloon expander handles together place the expanded balloon neck completely over the PUFF'N'STUFF™ opening/collar. However do not push down.
- 1.2.3. Release the expander handles allowing the balloon neck to grip the chamber opening. Press down on the body portion of the expander to completely release the balloon from the expander and on to the PUFF'N'STUFF™ collar. Remove the expander.

2. Inflate the balloon into stuffing chamber. Push firmly on the black inflator plug and with the other hand press on the coupling at the end of a hose to activate the inflator.
3. Insert the protective sleeve to protect the balloon and facilitate insertion of gifts and articles into the balloon.

4. Fill the balloon with shredded paper, plush toys, smaller size balloons or any other stuffing of your choice.
5. Once the arrangement is complete, remove the protective sleeve and balloon neck from the PUFF'N'STUFF™ opening.
6. Twist the neck of the balloon and close it with a balloon clip or disc.

7. Press down on the balloon to release the pressure within the chamber.

9. Add effects such as ribbon or bow and remove the balloon from the chamber.
